

2022 Natchitoches Parish Hazard Mitigation Plan Update

Executive Overview

The Hazard Mitigation Plan: What is in it for us?

Hazard Mitigation Is.....

- Any action taken to reduce long term risk to life and property;
- On-going process that occurs before, during, and after disasters;
- Mitigation actions help prevent damage to a community's infrastructure, economic, cultural and environmental assets;
- Minimize operational downtime and accelerate recovery of government and the private sector after an event;
- ***Implementation of mitigation actions leads to building stronger, safer and smarter!***

Why Do We Have A Hazard Mitigation Plan?

- To meet federal requirements.
- Planning efforts help our communities become more sustainable and disaster-resistant by focusing efforts on the hazards, disaster-prone areas and identifying appropriate mitigation actions for future projects.
- Must have a plan as a condition for receiving certain types of non-emergency disaster assistance.
- **No Plan = No Mitigation Money = No Project funding.**

Hazard Mitigation Plan Update Requirements

- The plan must be updated every five (5) years;
- Must have representation from each incorporated jurisdiction in the parish.
- Approved plan must be on file with FEMA to receive any federal hazard mitigation funds in the future.
- Approved plan must be on file with FEMA to utilize already allocated federal hazard mitigation funds on current projects.
- Must follow the FEMA update process (facilitated by GOHSEP and LSU).

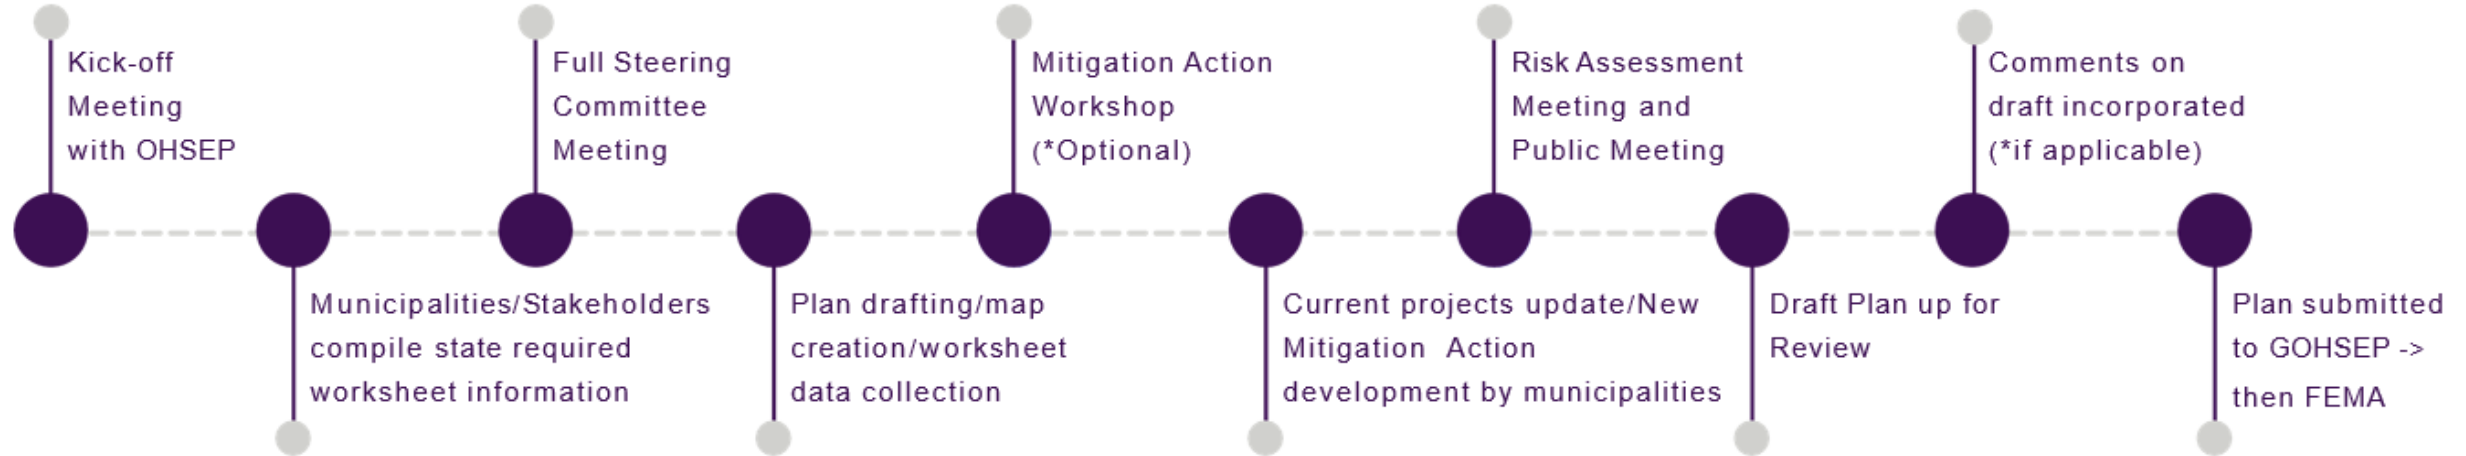

Federal Requirements

- Disaster Mitigation Act of 2000 (DMA 2000)
 - Section 322 of the Act specifically addresses mitigation planning and requires state and local governments to prepare multi-hazard migration plans as a precondition for receiving FEMA mitigation project grants.
- Title 44 Code of Federal Regulations (CFR) §201.6 for FEMA approval and eligibility to apply for FEMA Hazard Mitigation Assistance

The Planning Team: A Multi-jurisdictional Approach

- Each jurisdiction will have at least one representative on the planning team.
 - This representative will need to gather data requested by the planning team, collect feedback and input into the plan.
- Each jurisdiction is responsible for gathering **NFIP, Capability Assessment, Critical Facilities and vulnerable population data** for the plan.
- Each jurisdiction is responsible for **updating mitigation actions** and **proposing new actions** for the update.

Hazard Mitigation Plan Update Timeline

Plan Adoption

- Each jurisdiction **MUST** adopt the final plan once it has been approved by FEMA
- As a planning team member, be aware of the policies for your jurisdiction
 - Know the process for putting this plan on the docket for adoption

Plan Adoption

- Parish council and city council resolutions must be adopted, signed, and placed into the final planning document.

The following Resolution was introduced by Mr. Nielsen and Seconded by Mr. Harrington as follows, to –wit:
