Hazard Mitigation Is...

- Any action taken to reduce long term risk to life and property;
- On-going process that occurs before, during, and after disasters;
- Mitigation actions help prevent damage to a community's infrastructure, economic, cultural and environmental assets;
- Minimize operational downtime and accelerate recovery of government and the private sector after an event;
- ***Implementation of mitigation actions leads to building stronger, safer and smarter!***

Why Have a Hazard Mitigation Plan

- Planning efforts help our communities become more sustainable and disaster-resilient
 - Focuses efforts on the hazards, disaster-prone areas and identifying appropriate mitigation actions for future projects
- Must have a FEMA approved plan as a condition for receiving certain types of non-emergency disaster assistance
- **No Plan = No Mitigation Money = No Project Funding**

Federal HM Plan Requirements

44

Revised as of October 1, 2018

Emergency Management
and
Assistance

- Disaster Mitigation Act of 2000 (DMA 2000)
 - **Section 322** of the Act specifically addresses mitigation planning and requires state and local governments to prepare multi-hazard mitigation plans as a precondition for receiving FEMA mitigation project grants.
- Title 44 Code of Federal Regulations (CFR) §201.6 for FEMA approval and eligibility to apply for FEMA Hazard Mitigation Assistance

HM Plan Update Requirements

- The plan must be updated every 5 years
 - Plan was last updated in 2020
- Re-assess hazard identification and risk assessment
- Incorporate additional local planning efforts;
- Report mitigation strategy (projects) progress and discuss adjustments;
- **Must have a robust planning committee**
 - Include academia, private business/industry, and non-profit groups as stakeholders.

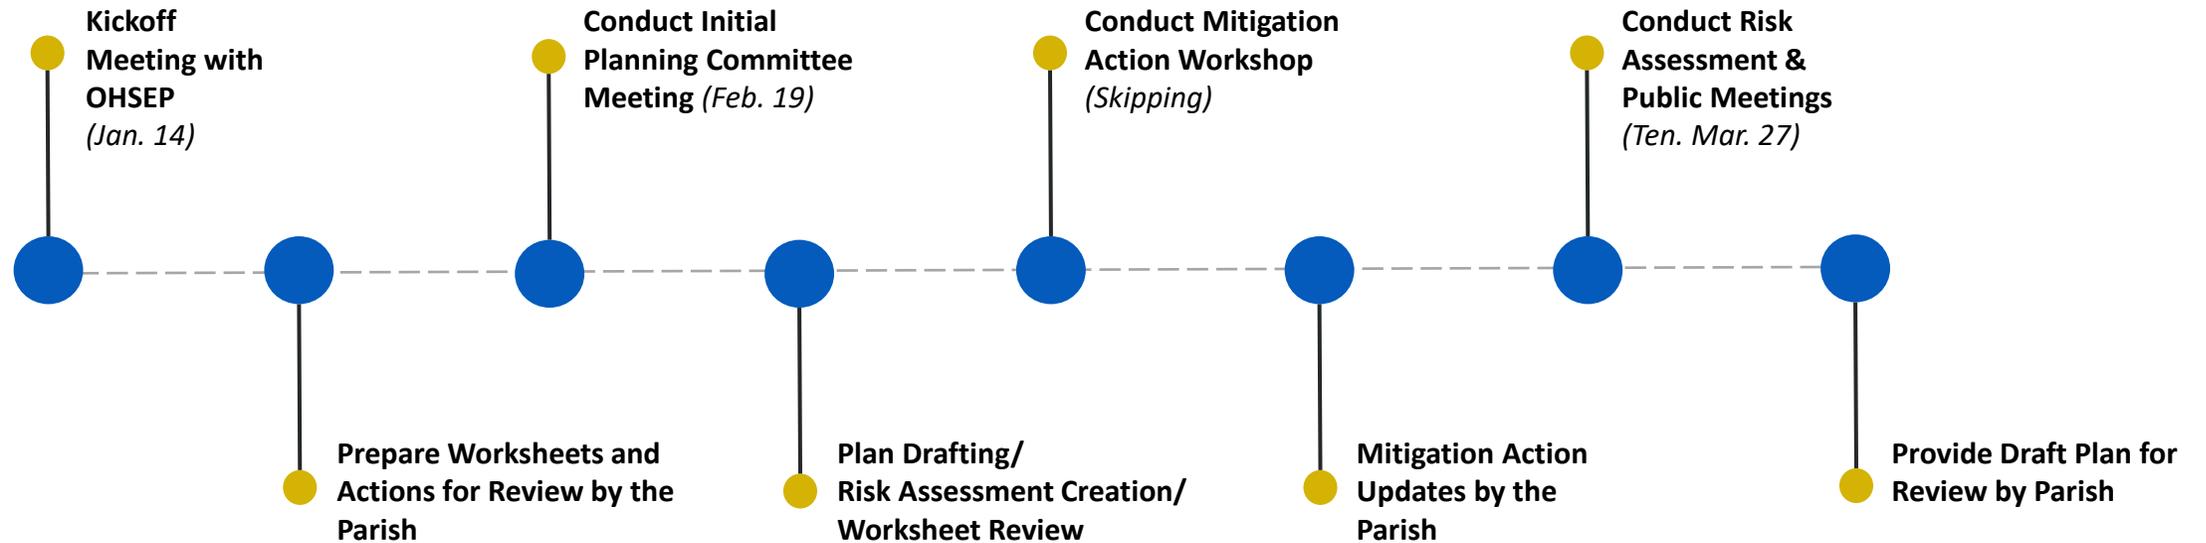

Hazard Mitigation Planning is a process that identifies natural hazard risks and develops strategies to reduce these risks.

| St Bernard Parish Mitigation Action Sheet | | | | | | | |
|--|--|------------------------|-----------|---|---|--------|----------|
| Jurisdiction-Specific Action | Action Description | Funding Source | Timeframe | Responsible Party, Agency, or Department | Hazard | Status | Comments |
| SB1: Building Retrofits | Retrofit public buildings exterior shell to maintain use during and after storm events. Benefits: Reduces damage from high winds, and helps assure that the public buildings can be used, occupied and operable during or after storms. | HGMP, BRIC, Local | 1-5 years | St. Bernard Parish Police Jury/St. Bernard Parish OHSEP | Flooding, Thunderstorms, Tornadoes, Tropical Cyclones | | |
| SB2: Drainage Improvements | Will relieve flooding problems, reduce flood damage and costs of damage, overtopping of roads with drain water, while also keeping open roadways during periods of high precipitation. Benefits: Relieves Parish or local government and property owners of the continual problems, with closed roadways (loss of function). Saves public funds for road repairs, drainage ditch repairs, sandbagging and blocking of roadways during storm periods. | HGMP, BRIC, FMA, Local | 1-5 years | St. Bernard Parish Police Jury/St. Bernard Parish OHSEP | Flooding, Thunderstorms, Tropical Cyclones | | |
| SB3: Mitigation of repetitive loss and severe repetitive loss properties and other hazard prone structures | Elevation, acquisition-demolition, acquisition-relocations, and reconstruction of repetitive loss or flooding or other hazard prone properties. | HGMP, BRIC, FMA, Local | 1-5 years | St. Bernard Parish Police Jury/St. Bernard Parish OHSEP | Flooding, Thunderstorms, Tropical Cyclones | | |
| SB4: Safe Room Projects | Construction of a safe room for first responders located in St. Bernard Parish. Other locations will be identified based on funding availability. | HGMP, BRIC, Local | 1-5 years | St. Bernard Parish Police Jury/St. Bernard Parish OHSEP | Flooding, Thunderstorms, Tornadoes, Tropical Cyclones | | |
| SB5: Education and Outreach | Enhance the public outreach programs for the parish and all communities by increasing awareness of risks and safety for Coastal Hazards, Flooding, Sinkholes, Thunderstorms, Tornadoes, Tropical Cyclones, hazards as well as providing information on high risk areas. Informing communities, business and citizens on proper mitigation efforts and activities will create resiliency within the parish and its communities. | HGMP, BRIC, FMA, Local | 1-5 years | St. Bernard Parish Police Jury/St. Bernard Parish OHSEP | Coastal Hazards, Flooding, Sinkholes, Thunderstorms, Tornadoes, Tropical Cyclones | | |
